Annual Cost Burden: \$26,451.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: The Federal Communications Commission (“Commission”) is requesting that the Office of Management and Budget (OMB) approve the establishment of a new information collection titled, “Application for Permit to Deliver Programs to Foreign Broadcast Stations (FCC Form 308).”

Applicants use the FCC Form 308 to apply, under Section 325(c) of the Communications Act of 1934, as amended, for authority to locate, use, or maintain a studio in the United States for the purpose of supplying program material to a foreign radio or TV broadcast station whose signals are consistently received in the United States, or for extension of existing authority.

Currently, the FCC Form 308 is only available to the public in paper form. The Commission obtained OMB approval of a revised FCC Form 308, in Excel format, that will be made available to the public on the FCC Forms page of the FCC's Web site, www.fcc.gov. The form was revised to make it more user friendly and to include questions to obtain only the legal and technical information that is essential to grant authority to U.S. broadcasters to supply program material to a foreign radio or TV broadcast station whose signals are consistently received in the U.S. or to extend the current authority. After the applicant completes the form, it is mailed to the U.S. Bank along with the application fee. Then, it is forwarded to the International Bureau with the exception of fee exempt applications which are filed directly with the FCC Secretary's Office and then forwarded to the Bureau.

FCC Form 308 applicants now have the option to file their applicants in the Electronic Comment Filing System (ECFS) and make their payment of their application filing fees electronically in the FCC Fee Filer System. Please note that this method is optional rather than mandatory. We believe that the availability of this option will substantially decrease or eliminate paper filings of FCC Form 308's with the Commission. This option will save time for the applicant and Commission staff. There are no other changes to the information collection, including burden estimates.

Without this collection of information, the Commission would not be able to ascertain whether the main

studio owner in the U.S. meets various legal requirements or the foreign broadcast facility, which receives and retransmits programming from the main studio in the U.S., meets various technical requirements that prevent harmful interference to other broadcast stations or telecommunications facilities.

Federal Communications Commission.
